MONDAY November 5, 2018

13:00-14:00 − Room 646 PGH

Speaker: Clement Dell'Aiera (University of Hawaii at Manoa)

Title: Dynamical Property T

Abstract: We will present a notion of topological property T for group actions which generalizes Kazhdan's property T for groups and geometric property T of Willett and Yu. This is work in progress with Rufus Willett.
