The information contained in this class outline is an abbreviated description of the course. Additional important information is contained in the departmental policies statement at <http://www.math.uh.edu/~dog/13xxPolicies.doc> and at your instructor's personal webpage. You are responsible for knowing all of this information.

Upon successful completion of this course, students will be able to use the basics of proving theorems and argue a point of view effectively. The topics lend themselves to learning the methods of proving an assertion. The course is designed for pre-service elementary and middle school teachers.

A student in this class is expected to complete the following assignments:

1 3 Regular Exams

2 Final Exam

3 Online Quizzes

- Quizzes 10%
- Tests 66% (22% each)
- Final Exam 24%

Total: 100%
