

Math 1314 – College Algebra

Beginning of the Semester To-Do List

- Read *the syllabus* posted in your instructor's website.
- Set up your *CASA account* at <https://casa.uh.edu/>
- Learn how to access the **MS Team created for your class**. The instructor will provide the necessary information accordingly.
- **We do NOT use Blackboard**. Everything will be found in your CASA accounts and MS Teams as needed.
- Stay informed about your course. Check your **UH email** regularly.
- Take *Course Policies Quiz* until your score is 100%. You can find it on the "Online Assignments" tab at <https://casa.uh.edu/> after you set up your account.
- Take *Quiz 00* (up to twenty times) until you master the content by the deadline. Along this quiz, work on *Homework 00* to practice more on your background.
- Learn your *Grading ID Number* (Peoplesoft ID number).
- Find the *online textbook* link at <https://casa.uh.edu/>.
- **Access Code:** Students pay for access to their CASA account as part of their fee bill via [CTAP](#). If one opts out of the [CTAP](#), they can purchase an access code for this course at UH Bookstore. In this case, if the code is not entered by the deadline specified on CASA, students will lose access to CASA. No make ups will be given for assignments missed during the no-access period. You are granted free access for the first two weeks of classes.
