

University of Houston Pi Mu Epsilon Chapter

Department of Mathematics

presents

From UH Math Degree to NASA Flight Controller

Friday, November 17

3:00pm-4:00pm

Location: PGH 232

Sophia Mela, UH alumna and undergraduate math major, will tell us about her journey from learning mathematics in the classrooms of UH to her job as an instructor for CRONUS' (Communication Radio Frequency Onboard Network Utilization Specialist) flight controllers and astronaut crew members under NASA's International Space Station Mission Control Center.

All Faculty members and students at all levels of their academic careers are encouraged to come.

Snacks will be served at the event!
