Panel Discussion: Graduate Student Timeline

Panel Event

Friday, February 17, 2017

3:00 pm - 4:30 pm

SEC 201

Event Description

Graduate students commonly worry about their progression through the graduate program and are often unsure about when to finish qualifying exams, choose advisors, begin research, write a thesis, and apply for jobs among other things. To address these and other common concerns, the UH AMS Student Chapter will be hosting a panel discussion composed of two professors and two senior graduate students who will share their knowledge on the graduate student timeline. The panel will consist of the following people:

- Dr. William Ott
- Dr. Mark Tomforde
- Alex Bearden
- Brett Geiger

Please join us for a great discussion that is applicable to graduate students of all levels and undergraduate students who are considering a graduate degree.

Coffee and donuts will be served at approximately 2:50 pm!
