Cougars and Houston Area Mathematics Program (CHAMP)

CHAMP Staff and Mentors

- There are several ways you can volunteer for CHAMP from once per week to once per year
- Volunteers (CHAMP Mentors) working every week, work no more than 2 hours per week
- They go to school and help lead a small group meeting. All materials and transport will be provided.

More than Volunteering and Working!

- We make sure that volunteering or working for CHAMP benefits your education and future careers. We organize several events every semester for CHAMP Personnel to informally meet members of the university!

- Make sure that school students from underserved neighborhoods receive same opportunities as other students
- Make sure students are properly challenged and reach their full potential
- Teach fun meaningful areas of Mathematics (Math is not just numbers!)
- Provide regular contact with successful college students, who serve as mentors

What we do

Check the website: www.math.uh.edu/champ for information and to sign up
