

# Houston Summer School on Dynamical Systems

Houston, Texas  
May 13-21, 2013

The Department of Mathematics at University of Houston will host a Summer School on Dynamical Systems from May 13-21, 2013.

The school will introduce advanced undergraduate and early graduate students to some of the fundamental concepts of dynamical systems through short lecture courses, tutorial and discussion sessions, and student projects.

**Funding is available to provide stipends covering travel and local expenses for all accepted participants.**

*Short course topics include*

- **Symbolic dynamics**
- **Rates of mixing**
- **Probabilistic techniques in dynamics**

*Lecturers*

- **Vaughn Climenhaga (Houston)**
- **Matt Nicol (Houston)**
- **Will Ott (Houston)**
- **Andrew Török (Houston)**
- **Sandro Vaienti (CPT, Marseille)**

**Additional information and application instructions:**  
<http://www.math.uh.edu/~climena/2013-school.html>

**Application deadline: February 28, 2013**
