

Hello everyone,

This month, I will be taking part in Movember, a fundraiser for men's mental and physical health (including psychiatric support, suicide prevention, cancer screenings, etc.). I will be growing a beard for the month!

If you are interested in donating to this cause, please scan the code or click here and make a donation. It can be anonymous if you'd like and I will not have access to any of your financial information going through this site. If you would like to make a cash donation, please speak to me either before or after class or during my office hours and I can process that for you.

Thanks in advance.
