

Hello everyone,

Yesterday afternoon, the provost announced that we will be extending the “soft opening” for the Fall 2021 semester an additional two weeks. This means that, during this time frame, you will continue to see Blank Notes, Completed Notes, and Recorded lessons displayed in the casa calendar on a daily basis.

Essentially, this recants the email I sent out two days ago concerning this topic.

I have no additional information as to why this extension was made or if it will be extended again. Please feel free to refer these questions to provost’s office if you would like additional information.
