Hi, everybody, today is the first day of the Spring Semester. This is your second email about Math 1100 -- the first one, in case you didn't get it, is on my website:

www.math.uh.edu/~dog

Now you will need TWO access codes. One for 1100 and one for the core class you are taking (Math 1310 or Math 1311).

You do need to get started with Quiz 1 this very week. So be sure to go to SPACE, the course management section, pick you subsection and get started.

You may take Quiz 1 up to 20 times. And I can get you reset for more attempts if needed. You are eligible for help in CASA Tutoring and the teacher of your core course can help you with these quizzes, too. You can also get help in Learning Support Services on these quizzes.

Let's get going here!

Ms. Leigh
