Hi, everybody,

It’s nearly mid week on Week 2 of the Spring Semester. You should be done with Quiz 1 and begun on Quiz 2.

Now I've posted all the previous emails on my website:

www.math.uh.edu/~dog

Make sure you are co-enrolled in either 1310 or 1311 and then when you open your account in SPACE (link on my website) you will then choose the subsection of Math 1100 that fits with your core course (13100 with 1310 and 13110 with 1311).

The access code deadline is this coming Sunday evening. If you have not input the code by then, you will not be allowed to do quizzes until you do put in a code. Buy these codes at the register (not on the shelves) in The Book Store. Just ask for a Math access code and don’t worry about the numbers on it.

Math 1311 students will buy one code and Math 1310 students will buy two.

If you have questions, email me. I'll be offsite tomorrow and my email message will be on. I will respond Thursday morning unless you catch me before I teach away the afternoon today!

Take care,

Ms. Leigh
