Hi, everybody, here's another email about Math 1100. The first email is on my website:

www.math.uh.edu/~dog

Now today, I want to talk about access codes and course management systems. Each of you should be in this course and a core math course (1310 or 1311). That's two courses. So you'll need TWO access codes; one for each course.

Access codes are available at the checkout counter in The Book Store. They cost about $50 each. Just ask for the "Math Access Code" when you check out. The codes are just an envelope with a 9 digit number in it. They're not course specific. When you buy it, keep it safe til you can get to your computer or laptop. Enter one into your COURSEWARE account for your core course and the other into SPACE for our Math 1100 course.

If you don't do this by the deadline (which is Sunday night September 3 at midnight), your access to the course management system(s) will be cut off. So please do this soon so you'll have uninterrupted time to get your work in.

Have a lovely last weekend of the summer,

Ms. Leigh
