## **SYLLABUS**

## MATH 3363 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS SPRING 2016

**Instructor:** Alexander Mamonov

Office: PGH 690

**Office hours:** MW 5:30 PM – 7:00 PM at AH 202

**Phone:** (713) 743-0297

E-mail: <u>mamonov@math.uh.edu</u>

Web page: <a href="http://www.math.uh.edu/~mamonov/MATH3363-S2016/">http://www.math.uh.edu/~mamonov/MATH3363-S2016/</a>

Classroom: CBB 122

**Class hours:** MW 4:00 PM - 5:30 PM

\*

The information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

\*

**Prerequisite:** MATH 2433 and either MATH 3321 or MATH 3331.

**Textbook:** Richard Haberman, Applied Partial Differential Equations with Fourier Series and

Boundary Value Problems, 5th edition.

**Objectives:** Upon completion of this course, the students are expected to be able to solve elementary

boundary and initial value problems for partial differential equations (PDEs). The students will also have an understanding of Fourier series and their use for solving

PDEs.

**Topics:** For the course content see the Math Department's MATH 3363 web page at:

http://www.mathematics.uh.edu/undergraduate/courses/math3363/index.php

**Grading:** Three in-class midterm exams and a final exam will be given. There are no make-ups for

the exams. The course grade is determined by the homeworks, midterm exams and the

final exam as follows:

Homework 1/6 Midterm 1 1/6 Midterm 2 1/6 Midterm 3 1/6 Final Exam 1/3
