

SYLLABUS

MATH 3363 INTRODUCTION TO PARTIAL DIFFERENTIAL EQUATIONS SPRING 2023

Instructor: Alexander Mamonov
Office: PGH 690
Office hours: MW 5:30PM - 6:30PM
Phone: (713) 743-0297
E-mail: avmamonov@uh.edu
Class web page: <https://www.math.uh.edu/~mamonov/MATH3363-S2023/index.html>
Classroom: CBB 214
Class hours: MW 4:00PM - 5:30PM
Class number: 17788

The information contained in this class syllabus is subject to change without notice. Students are expected to be aware of any additional course policies presented by the instructor during the course.

All class policies, announcements, reviews, homework assignments, solutions, and grades are posted on Blackboard: <http://elearning.uh.edu/webapps/portal/frameset.jsp>

Prerequisite: MATH 2415 and either MATH 3321 or MATH 3331.

Textbook: Richard Haberman, *Applied Partial Differential Equations with Fourier Series and Boundary Value Problems*, 5th Edition, Pearson.

Objectives: Upon completion of this course, the students are expected to be able to solve elementary boundary and initial value problems for partial differential equations (PDEs). The students will also gain an understanding of Fourier series and their use for solving PDEs.

Assignments, Exams and Grading: Weekly homework, two in-class midterm exams and a final exam will be given. There are no make-ups for the exams. The course grade is determined by the homework, midterm exams and the final exam with each having the following weights:

| | |
|------------|-----|
| Homework | 1/5 |
| Midterm 1 | 1/5 |
| Midterm 2 | 1/5 |
| Final Exam | 2/5 |

Specifically, at the end of the semester, the following (percentage) Weighted Class Total (WCT) quantity is computed

$$WCT = 0.2*HW + 0.2*ME1 + 0.2*ME2 + 0.4*FE,$$

where HW is the average of all homework grades excluding the two lowest grades, ME1 and ME2 are the first and second midterm exam grades, respectively, and FE is the final exam grade. Any missing assignment or exam grades are set to zero.

WCT is converted to a Letter Grade on a sliding scale that is determined at the very end of the semester after the Final Exam. The sliding scale is set so that the average value of WCT taken over the whole class corresponds to a Letter Grade between B- and C+.

Topics: The following topics are covered (section numbering as in the textbook, the list is subject to change)

Chapter 1: Heat Equation

1.2 Derivation of the Conduction of Heat in a One-Dimensional Rod

1.3 Boundary Conditions

1.4 Equilibrium Temperature Distribution

Chapter 2: Method of Separation of Variables

2.3. Heat Equation with Zero Temperatures at Finite Ends

2.4.2 Heat Conduction in a Thin Circular Ring

2.5 Laplace's Equation: Solutions and Qualitative Properties

Chapter 3: Fourier Series

3.1 Introduction

3.2 Statement of Convergence Theorem

3.3 Fourier Cosine and Sine Series

3.6 Complex Form of Fourier Series

Chapter 4: Wave Equation: Vibrating Strings and Membranes

4.2 Derivation of a Vertically Vibrating String

4.3 Boundary Conditions

4.4 Vibrating String with Fixed Ends

Chapter 7: Higher Dimensional Partial Differential Equations

7.3 Vibrating Rectangular Membrane

7.7 Vibrating Circular Membrane and Bessel Functions

Chapter 10: Infinite Domain Problems:

Fourier Transform Solutions of Partial Differential Equations

10.3 Fourier Transform Pair

10.4 Fourier Transform and the Heat Equation

10.6.3 Laplace's Equation in a Half-Plane

COVID-19 Information

Students are encouraged to visit the University's [COVID-19](#) website for important information including diagnosis and symptom protocols, testing, vaccine information, and post-exposure guidance. Please check the website throughout the semester for updates. Consult the [Undergraduate Excused Absence Policy](#) for information regarding excused absences due to medical reasons.

Reasonable Academic Adjustments/Auxiliary Aids

The University of Houston complies with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, pertaining to the provision of reasonable academic adjustments/auxiliary aids for disabled students. In accordance with Section 504 and ADA guidelines, UH strives to provide reasonable academic adjustments/auxiliary aids to students who request and require them. If you believe that you have a disability requiring an academic adjustments/auxiliary aid, please contact [the Justin Dart Jr. Student Accessibility Center](#) (formerly the Justin Dart, Jr. Center for Students with DisABILITIES).

Excused Absence Policy

Regular class attendance, participation, and engagement in coursework are important contributors to student success. Absences may be excused as provided in the University of Houston [Undergraduate Excused Absence Policy](#) for reasons including: medical illness of student or close relative, death of a close family member, legal or government proceeding that a student is obligated to attend, recognized professional and educational activities where the student is presenting, and University-sponsored activity or athletic competition. Under these policies, students with excused absences will be provided with an opportunity to make up any quiz, exam or other work that contributes to the course grade or a satisfactory alternative. Please read the full policy for details regarding reasons for excused absences, the approval process, and extended absences. Additional policies address absences related to [military service](#), [religious holy days](#), [pregnancy and related conditions](#), and [disability](#).

Recording of Class

Students may not record all or part of class, livestream all or part of class, or make/distribute screen captures, without advanced written consent of the instructor. If you have or think you may have a disability such that you need to record class-related activities, please contact the [Justin Dart, Jr. Student Accessibility Center](#). If you have an accommodation to record class-related activities, those recordings may not be shared with any other student, whether in this course or not, or with any other person or on any other platform. Classes may be recorded by the instructor. Students may use instructor's recordings for their own studying and notetaking. Instructor's recordings are not authorized to be shared with *anyone* without the prior written approval of the instructor. Failure to comply with requirements regarding recordings will result in a disciplinary referral to the Dean of Students Office and may result in disciplinary action.

Syllabus Changes

Please note that the instructor may need to make modifications to the course syllabus and may do so at any time. Notice of such changes will be announced as quickly as possible through email and/or Blackboard.

UH Email

Email communications related to this course will be sent to your Cougarnet account. To access this email, [login](#) to your Microsoft 365 account with your Cougarnet credentials.
