PI MU EPSILON

What is Pi Mu Epsilon? Pi Mu Epsilon is the National Mathematics Honor Society. It has more than 300 chapters at colleges and universities throughout the United States. The purpose of Pi Mu Epsilon is to promote scholarly activity in mathematics among students in academic institutions. Membership in the University of Houston’s chapter of Pi Mu Epsilon is based upon outstanding scholastic record and exceptional performance in mathematics. To be selected as a member of Pi Mu Epsilon is a very high honor.

You are eligible to become a member of Pi Mu Epsilon if you satisfy one of the following:

1. You are a candidate for an undergraduate degree at the University of Houston and have met all of the following requirements:
   a. Completed at least the equivalent of two semesters of calculus and two additional courses in mathematics, at or above the calculus level, all of which lead to the fulfillment of the requirements for a major in the mathematical sciences.
   b. Have maintained the equivalent of a grade point average of at least 3.0 on a 4.0 scale in all mathematics courses that lead to the fulfillment of the requirements for a major in the mathematical sciences.
   c. Have maintained the equivalent of a grade point average of at least 3.0 on a 4.0 scale in all courses that lead to the fulfillment of the requirements for an undergraduate degree.

2. You are a candidate for a graduate degree at the University of Houston whose mathematical work is at least equivalent to that required of qualified undergraduates, and you have maintained the equivalent of a grade point average of at least 3.0 on a 4.0 scale in mathematics courses during your last school year prior to your election.

3. You are a faculty member at the University of Houston

Contact Dr. Mark Tomforde, www.math.uh.edu/~tomforde, to become a member.
