Course Description: All sections of Calculus I follow a common syllabus and take
the same tests in the CASA testing center. For details see:
http://www.mathematics.uh.edu/undergraduate/courses/math1431/index.php

Course Learning Materials: The textbook will be made available by logging into
CourseWare at:
http://www.casa.uh.edu
Materials will be free the first two weeks but all students must purchase a Course
Access Code and enter it on CourseWare by the first day of the third week of class
to continue accessing the course learning materials. A Course Access Code can be
purchased for about $47.35 from the University Bookstore. If you want a physical
copy of the text for the course, then purchase:
“CALCULUS, 9th edition” by Salas/Hille/Etgen, published by John Wiley & Sons,
Inc.

NOTE: You do NOT need to purchase a physical copy of this text. You will have
access to the text electronically on CourseWare once you enter your Course Access
Code. Also, even if you purchase a physical copy of the text, you will still need the
Course Access Code to access the additional learning materials, especially the online
quizes.

Assessment: Your final grade will be based on 900 points:

- Placement(Review) test(100pts),
- Three tests(100pts each),
- Quizes in Lab and poppers(150pts),
- Online quizes and Practice Test(150pts),
• Final Exam (200 pts)

Homework is for practice and does not need to be turned in. The Lab quizzes will be our way to check that you have done the homework.

You will need to purchase a set of “poppers” for taking pop quizzes. These quizzes will be given almost every day in the lectures starting with the third week, so attendance is vital.

**Calendar:** See the calendar for the opening and closing dates of each online quiz. There will be no amnesty period for missed quizzes.
